

INFORMATION OPERATIONS EVENTS CALENDAR

AS OF 01 June 2004

Events Added Since 14 May 2004

- 30 Jun 04** **Army IT Day** The theme this year is “Army at War: Relevant & Ready Through Technology” and is being held at the McLean Hilton in Tysons Corner, VA from 8:00a.m. – 6:00 p.m. For more information and online registration: <http://www.afceanova.org/events/armyitday>
- 13-15 Jul 04** **Do It Yourself Vulnerability Assessment Program (DITYVAP) Certification** Training at Cobb Hall, Fort Gordon, GA. The goal of DITYVAP is to provide unit and command level systems and network administrators with certification training and an organic capability to perform self-assessments on internal networks. Training, state-of-the-art vulnerability assessment tools and techniques and other technical support is provided by RCERT-South with the ACERT-CDAB as the central authority. For more information, visit the RCERT-South Web site at <http://www.rcert-s.army.mil>
- 27-28 Jul 04** **Perspectives on C2 Assessment: Theory & Practice** Information and intelligent C2 systems are key to the success of the warfighter. The effective C2 system must enable the warfighter to combine all aspects of warfare - intelligence, operations, battle damage assessment, logistics - and communicate this information with the joint forces at all echelons. Additionally, a carefully assessed C2 strategy can leverage new warfighting capabilities to the combatant commanders, rendering fewer unknowns, environmental flexibility and a reduced staff. Attend IDGA's 2-day seminar and learn how to: Analyze C2 theory, doctrine and applications, Improve the practice of command and control, take full advantage of existing technologies in this age of information superiority, and develop a methodology for effective C2 assessment strategies, risk & cost planning, and reporting tactics. For more information: <http://www.idga.org/cgi-bin/templates/singlecell.html?topic=222&event=5012>
- 17-19 Aug 04** **Do It Yourself Vulnerability Assessment Program (DITYVAP) Certification Training** at Cobb Hall, Fort Gordon, GA. The goal of DITYVAP is to provide unit and command level systems and network administrators with certification training and an organic capability to perform self-assessments on internal networks. Training, state-of-the-art vulnerability assessment tools and techniques and other technical support is provided by RCERT-South with the ACERT-CDAB as the central authority. For more information, visit the RCERT-South Web site at <http://www.rcert-s.army.mil>
- 21-23 Sep 04** **Do It Yourself Vulnerability Assessment Program (DITYVAP) Certification Training** at Cobb Hall, Fort Gordon, GA. The goal of DITYVAP is to provide unit and command level systems and network administrators with certification training and an organic capability to perform self-assessments on internal networks. Training, state-of-the-art vulnerability assessment tools and techniques and other technical support is provided by RCERT-South with the ACERT-CDAB as the central authority. For more information, visit the RCERT-South Web site at <http://www.rcert-s.army.mil>
- 28-29 Sep 04** **Electronic Warfare 2004** in London UK. The theme of the conference is Examining the requirements, doctrine and systems that will prove crucial to EW dominance in the Future Joint Battlespace. Conference highlights include: Latest international requirements for Joint EW Operations, analysis of how learnings from recent conflicts are impacting future plans and doctrine, focus on key platforms, programs and technologies including the EA-18G, Chinook, DIRCM, Nulka and MoDAS, dedicated sessions on protection for civil aircraft, and tailored networking opportunities to promote international partnerships. For more information: <http://www.idga.org/cgi-bin/templates/document.html?topic=228&event=5134&document=42304>

IO CALENDAR

Information Assurance Technology Analysis Center (IATAC)

Phone: 703-289-5454

Unclassified email: IATAC@dtic.mil

Fax: (703) 289-5467

URL: <http://iac.dtic.mil/iatac>

28-29 Sep 04

DoD Architectures - Framework, Development & Implementation IDGA is proud to announce our 2nd Conference on DoD Architectures. This event was developed as a direct response to feedback from our past conference attendees regarding the continuing need for a training forum that presents all of the changes, updates and revisions to architecture development in the Department of Defense. The main focus of this briefing will be the implementation of Enterprise Architectures for the DoD. Building on the success of our February 2004 meeting, which attracted over 250 senior members of the defense community, attendance at this conference will enable people to discuss implementing the necessary tools and processes for a compliant, effective architecture. For further information and registration: <http://www.idga.org/cgi-bin/templates/singlecell.html?topic=233&event=5158>

COMPLETE CALENDAR AS OF 01 June 2004

2-4 Jun 04

Government Solutions Forum at the Ronald Reagan Building, Washington, DC. Attend the only event focused exclusively on E-Government solutions. What's working and what's next? Developed to meet the demands of the evolving E-Government market, this unique annual event spotlights the rules, tools and solutions necessary for running the business of government. It's where government leaders explore past successes and look ahead to what's next for improving agency effectiveness, efficiency and service delivery. For more information: <http://www.e-gov.com/events/2004/gsf/>

03 Jun 04

Implementing IT Best Practices for Results at the DoD is being held at the Norfolk Waterside Marriott in Norfolk, VA. This complimentary briefing for DoD IT professionals will focus on how implementing enterprise software solutions based on recognized best practices, like ITIL, can help meet the requirements of executive-sponsored initiatives that focus on improving, securing, and preparing DoD IT infrastructure for: § Net-Centric transformation, Information on-demand, Operational readiness for the networked battle force, Net-Centric enterprise services, Measuring IT's operational capabilities and performance 7:30 a.m. - 12:30 p.m. For more information: www.remedy.com/gov

5-19 Jun 04

(Mobile) **CERT Operational Training Experience (OTE) - ID: NGB-AIS-OTE**. A 14-day training class held at Camp Murray, Tacoma, WA trains Computer Emergency Response Teams (CERTs) in support of Information Operations. This course is designed to train students to protect networks by constructing multiple layers of computer network defense in depth. Additionally, there is a three-day hands-on situational training exercise (STX). Students must complete information operations IO101 and IRH prior to attending. Students must have network and system administration experience in either WINNT or UNIX. For further information: <http://www.vtguard.com/IO/index.htm> or call (802) 485-1933. Course can be located in the Army Training Requirements and Resource System (ATRRS) under School Code 1019.

7 Jun 04

Naval Information Warfare Staff and Operations Course (NIWSOC) at CIN: A-2G-0116 being held at FIWC, IWTF, Norfolk, VA. CIN: A-2G-0116 - Class number FY0405- Graduates 18 JUN 04. The course mission is to prepare those personnel assigned or enroute to Information Operations (IO) assignments on a Naval Component, Afloat or Shore Staff. It is also suitable for individuals involved in IO as Naval representatives assigned to DoD or other U.S. government agencies or service component headquarters. The course provides students with the fundamental knowledge and skills to conduct Naval IO. The course emphasizes practical application and recent experiences that may be applied to current challenges. Topics include: Core elements and supporting activities of IO; IO policy, doctrine, and organization; IO capabilities and related activities; IO planning and targeting; and Naval-specific considerations. Students are required to demonstrate their learning by successfully completing an end of course examination and through participation in comprehensive practical exercises that are integrated throughout the course. Some students may be asked to provide presentations on IO/IW operations and organization in the activity to which they are assigned. Four quotas per class reserved for USMC. For directions visit <http://www.fiwc.navy.mil/info/directions.shtml>. Course schedules and Curriculum outline can be viewed at <http://ekm.netwarcom.navy.smil.mil/n92/NIWSOC.htm>

- 7-9 Jun 04** **10th Annual Gartner IT Security Summit** will be held at the Marriott Wardman Park Hotel, Washington, D.C. Information security is more precarious than ever. Unrivaled in size, scope and significance, Gartner IT Security Summit hits the sweet spot between strategic planning and tactic advice. It covers the new and emerging technologies that best suit your enterprise, as well as the policy, planning and compliance issues you must understand to serve your organization's specific business needs. Join our team of renowned analysts, along with innovative CIOs and CEOs, industry experts, and world-class technology providers for a vital 3-day forum on the state of IT security today, from the network to the boardroom. For more information: http://www3.gartner.com/2_events/conferences/sec10.jsp
-
- 7-10 Jun 04** **Army IT Conference** in Hershey, PA. The Army Small Computer Program proudly hosts the Army's most powerful Information Technology Conference attracting more than 500 attendees including Army, DOD, Federal/Government employees, Support Contractors, Industry and Exhibitors. The conference brings together the most important and knowledgeable people driving the Army's present and future IT requirements. The conference is packed with exciting guest speakers from DOD and Industry and includes an exhibition hall consisting of over 30 exhibitors showcasing the latest IT Products and Services available on ASCP contracts, including the newest ITES award. For more information: ascp.monmouth.army.mil
-
- 7-11 Jun 04** **Joint Psychological Operations Course (JPOC)** The Joint Psychological Operations Course will be held at the US Air Force Special Operations School/Joint Special Operations University, Hurlburt Field, FL. The JPOC is designed to educate U.S. military personnel, E-4 through O-5, and civilian equivalents whose duties require an understanding of joint psychological operations (PSYOP). It is suitable for SOF, force protection, intelligence personnel and those who require a solid understanding and appreciation of joint PSYOP capabilities. The course provides participants with fundamental knowledge of PSYOP policy, doctrine, and supporting organizations and capabilities. Additionally, experienced PSYOP personnel may benefit from presentations that highlight PSYOP application during current operations and in support of Theater Security Cooperation Plans. The course includes selected presentations at the collateral Secret level. The course description is located on the Course Webpage at: <http://www.hurlburt.af.mil/jsou>. Other inquiries may be addressed to unclassified email: jsou.jpoc@hurlburt.af.mil.
-
- 7-11 Jun 04** **National OPSEC Conference and Exhibition** will be held at the Baltimore Marriott Waterfront Hotel in Baltimore, Maryland. The conference is designed to provide training and networking opportunities for professionals in management, security, intelligence, infrastructure protection, counterintelligence, military operations, public safety and related fields. The conference offers a unique opportunity for OPSEC practitioners and professionals from related fields to network and develop contacts and resources. No other event brings together the number and quality of experts that can be found at this conference. Training is offered in the form of pre-conference full-day and half-day courses some of which carry accreditation from the National Cryptologic School. Workshops and seminars are incorporated into the conference schedule throughout the week. Workshops focus on practical skills and tools that OPSEC officers can immediately apply to OPSEC analysis and program management. Further information will be posted at www.iaevents.com at the IOSS website.
-
- 7-18 Jun 04** **Joint Information Warfare Staff and Operations Course (JIWSOC)**. Class S-04-6 will be held at the Joint Forces Staff College (JFSC), Norfolk, VA. The JIWSOC is designed to educate individuals assigned or en route to an Information Operations cell on a Unified Command or JTF staff. The course is also highly suitable for individuals involved in IO issues assigned to a DoD Agency, Chairman Sponsored Activity, or Service Component supporting a Combatant Commander. The course provides broad exposure to IO and IW through staff lectures, seminars, case studies, panel discussions, guest speakers, and practical applications. The course is taught at the TS/SCI level. POC unclassified email: JCIWS-IW-QUOTA@jfsc.ndu.edu. Additional IW Division information is available at the JCIWS unclassified web page: http://www.jfsc.ndu.edu/schools_programs/jciws/iw/default.asp

7-25 Jun 04

FA30 Information Operations Qualification Course. Will be held at Fort Leavenworth, KS. Course is designed to train FA 30 officers for initial assignments in IO. The course includes an in-depth study of IO, including the elements of offensive and defensive IO. These elements are studied from the perspective of the FA 30 officer, who has integration, coordination, and synchronization responsibilities. Special emphasis is placed on IO planning and planning products, as well as attendant decision support tools available to the IO officer. Students hone their planning skills and demonstrate their knowledge of IO in a series of practical exercises (PEs) and product development exercises. This educational experience prepares IO officers for assignments at tactical and operational echelons where they are expected to coordinate, integrate, plan, and execute IO. A distance-learning phase is a prerequisite to this course and opens approximately 90 days prior to the resident phase. Limited seating is available to active, reserve and National Guard FA30 officers. POC: Mr. Stephen Becker (913) 684-3089; DSN: 552-3089; beckers@leavenworth.army.mil

8-10 Jun 04

Transformation Technet 2004 is being held in Virginia Beach, VA at the Virginia Beach Pavilion Convention Center. The theme of the conference is "Achieving Decision Superiority." The agenda will focus on: Lessons Learned and Operational Challenges from Operations Enduring and Iraqi Freedom, Intelligence and Decision Superiority, Transformation, Concept Development and Prototyping, New Paradigms for C2 and Decision Superiority. For more information and to register: <http://afcea.org/transformation04/default.asp>

8-10 Jun 04

Army IT Conference will be held at the Hershey Lodge and Convention Center in Hershey, PA. The Army Small Computer Program proudly hosts the Army's most powerful Information Technology Conference attracting more than 500 Army DoD, Federal/Government Employees, Support Contractors and Industry and Exhibitors. The conference brings together the most important and knowledgeable people driving the Army's present and future IT requirements. The conference is packed with exciting guest speakers from DoD & Industry and includes an exhibition hall consisting of over 40 exhibitors showcasing the latest IT Products and Services available on ASCP contracts. The conference is FREE!! for all Army, DoD, Federal/Government employees, Support Contractors and Exhibiting Vendors. For Industry Attendees without a direct Government Support Contract, a registration fee of \$100 is required. For more information: <https://ascp.monmouth.army.mil/scp/aitec/generalinfo.jsp>

10-11 Jun 04

Annual IEEE Information Assurance Workshop is being held at U.S. Military Academy in West Point, N.Y. The workshop is designed to provide a forum for Information Assurance researchers and practitioners to share their research and experiences. Attendees hail from industry, government, and academia. The focus of this workshop is on innovative, new technologies designed to address important Information Assurance issues. TWO new tracks have been added this year; one for Best Practices and one for HoneyNet Technologies. For more information: <http://www.itoc.usma.edu/workshop/2004/index.html>

11-13 Jun 04

TechNet 2004 is being held at the Washington Convention Center in Washington, D.C. TechNet International is an annual event sponsored by AFCEA International. The 3-day event is one of the nation's largest C4I conventions and expositions and features numerous professional development opportunities and tremendous networking opportunities. For more information: http://www.technet2004.org/generalinfo_faq.htm

14-16 Jun 04

NetSec 2004 is being held at the Hyatt Regency Embarcadero, San Francisco, CA. It is the industry's premier conference devoted entirely to the security of networked information systems. NetSec '04 offers over 100 sessions: lectures, case studies, discussions, tutorials and keynotes designed to increase both your management and technical know-how and make you a better practitioner. When it comes to technology, NetSec focuses on leading-edge security technologies in the 21st century. The program covers a broad array of topics, including awareness, privacy, policies, wireless security, VPNs, remote access, Internet security and more. The Exhibition June 14-15 features over 90 security vendors, from the industry leaders to new up-and-coming companies--the easiest way for you to research and learn about the products you need. For more information: <http://www.gocsi.com/events/netsec.jhtml>

- 14-18 Jun 04** **2004 PKI/PKE Forum** The overall theme of the June PKI Users' Conference will be Identity Management. This theme is being driven by the recent restructuring of the Seniors' PKI, BMO and ACO Management groups into a single Identity Management focus group. The objective of this conference is to provide something of value for all attendees. We are anticipating many varied communities of interest: the policy makers, the technical folks and major DoD topical communities who have not been previously engaged with biometrics, CAC and PKI. We are hoping to have a law enforcement track where our DoD criminal investigators gain access to the PK technicians and discuss the impact of PKI on law enforcement. For more information and registration: <https://www.iaevents.com/PKIPKE04/newinfo.cfm>
- 14-25 Jun 04** **Information Operations (210) Course - ID: NGB-AIS-IO (210)** – Mobile Training (MTT) Institution at Camp Mabry, Austin, TX. This 11 day class trains Field Support Team (FST) members to plan Information Operations (IO) using the Army's Military Decision-Making Process (MDMP). The course is presented in two blocks. Block I reacquaints students with the elements of IO, thoroughly familiarizes them with MDMP, and teaches students how to employ MDMP for IO planning. Block II, requires students to apply the knowledge and skills acquired during Block I as they plan IO under more realistic and stressful conditions. Prerequisites: Must complete Information Operations 101 prior to attending. For further information: <http://www.vtguard.com/IO/index.htm> or call (802) 485-1933. Course can be located in Army Training Requirements and Resource System (ATRRS) under School Code 1019.
- 14-16 Jun 04** **NetSec 2004** being held at the Hyatt Regency Embarcadero in San Francisco, CA. NetSec 2004 is the industry's premier conference devoted entirely to the security of networked information systems. NetSec '04 offers over 100 sessions: lectures, case studies, discussions, tutorials and keynotes designed to increase both your management and technical know-how and make you a better practitioner. It focuses on leading-edge security technologies in the 21st century. The program covers a broad array of topics, including awareness, privacy, policies, wireless security, VPNs, remote access, Internet security and more. For more information and registration: <http://www.gocsi.com/events/netsec.jhtml>
- 16-17 Jun 04** **FISC (Federal Information Security Conference) 2004** will take place at historic Antler's Hotel (Adam's Mark) in downtown Colorado Springs. The hotel is a convenient location for the local federal and military personnel. It will feature three tracks covering the latest in Information Security: Security Policies/Guidelines, Technologies & Trends, and Protecting Critical Information. Government and industry leaders will be speaking on many of the following critical topics: Global Information Grid (GIG-IA), System Certification & Accreditation, Common Criteria/CMVP, DoD IA Strategic Plan, Wireless Security Policies, Crypto Modernization, Information Hiding, Smart Cards, Security and VPN, Storage Networking, PKI, Web Security, Network & System Security, Threats & Vulnerabilities, and Security Awareness & Education. For more information: <http://www.fbcinc.com/event.asp?eventid=Q6UJ9A0078BN>
- 20-23 Jun 04** **NMCI Industry Symposium** is being held at the Marriott in New Orleans, LA. This year's Symposium will emphasize dialogue among the Department of the Navy (DON), the NMCI program office, and the IT industry. Members of the IT industry will also learn how to partner with EDS to deliver IT capabilities to the Navy and Marine Corps via NMCI. Confirmed Speakers include: The Honorable Gordon England, Secretary of the Navy; Mr. Dave Wennergren, Chief Information Officer, Department of the Navy; Mr. Steve Ehrler, Program Executive Officer for Information Technology; RADM Chuck Munns, USN, Director of NMCI; and Mr. Jeff Heller, President and Chief Operating Officer, EDS. For more information and registration: <http://www.nmcisymposium.com/>
- 21-25 Jun 04** **Information Operations Fundamentals Course FY04-04050**. To be held at EWTGLANT, Little Creek NAB, Norfolk, VA. Course available to all officer or enlisted personnel of any branch of service involved in the operational planning of units for employment as expeditionary forces, and to civilian personnel from DOD, State Department, and intelligence agencies/organizations, who participate in the planning and/or mission execution of expeditionary forces. The course provides a fundamental knowledge of the strategy, concepts, major capabilities and associated methodologies of IO that will enable the student to successfully integrate IO into the expeditionary warfare environment. A Secret clearance is required. Quotas may be requested via homepage: www.ewtglant.navy.mil <http://www.ewtglant.navy.mil>, call DSN 253-7343, COML: (757) 462-7343, or email at QUOTAS@EWTGLANT.NAVY.MIL mail to: QUOTAS@EWTGLANT.NAVY.MIL POC is Major Sanders (IO Course Manager): DSN: 253- 8685, COML: (757) 462-8685 or GySgt Durham (IO Senior Instructor): DSN 253-7748, COML: (757) 462-7748.

- 26-27 Jun 04** **Homeland Security Technology Summit** is being held at the Sheraton Imperial Hotel & Convention Center, Research Triangle Park, North Carolina. Understand the key Homeland Security issues facing public and private sectors. Establish what can and should be done to address these challenges in a practical, cost effective, and timely manner. Explore a range of existing and new technologies that will enable Homeland Security solutions. Extensive demos will be available and several new technologies will be unveiled for the first time. Define a roadmap for technologies, which will be required to be developed. Build a collaborative framework between the private and public sectors to jointly create, design, implement, and rollout Homeland Security solutions. Provide a unique networking environment. Please check web site for details: www.ozonelink.com
- 28-30 Jun 04** **3rd Annual Government Symposium on Information Sharing & Homeland Security** is being held at Royal Pacific Resort at Universal Studios in Orlando, Florida. This Convention will: Clarify the leadership role of the Department of Homeland Security, describe how federal agencies support state and local partners and identify shortfalls, review lessons learned from various pilot programs, operations and experiences and highlight "Best Practice" initiatives by jurisdictions of all levels. For more information: <http://federalevents.com/ishs/>.
- 28 Jun – 2 Jul 04** **Intelligence Support to Information Operations Course** is being taught at the Joint Military Intelligence Training Center, Defense Intelligence Agency. The objective of this course is to educate U.S. government and military personnel in Information Operations with primary emphasis on Intelligence Support to IO to enhance students' background and understanding of the nature, evolving concepts, and implications of IO in Joint Operations. Specifically, the course focuses on teaching approved Joint Doctrine and Policy as they apply to the operational level of joint warfare. Students will receive a foundation in Computer Network Operations, joint and service perspectives, intelligence community support to IO, legal implications, roles and initiatives and implications of IO for the field of intelligence. This course is particularly relevant as an introductory course for those serving in operational or intelligence positions that support information operations, intelligence and information operations planning. Participants must have a TS//SI clearance. For more information contact the Course Manager, Greg Harper at (202) 231- 1274.
- 29-30 Jun 04** **Blue Force Tracking: Situational Awareness** will be held at the Hamilton Crowne Plaza Hotel, WASH DC. Operation Iraqi Freedom clearly demonstrated the benefits of blue force tracking, which allows commanders to determine the location of friendly forces on the battlefield. Blue force tracking systems have already proven their value in reducing the incidence of fratricide: ground forces in Iraq using the Force XXI Battle Command Brigade and Below tactical communications system have had no friendly fire deaths. This conference will discuss how services are using blue force tracking and what benefits are being delivered to the warfighter, as well as exploring the promising future of this technology. For more information: <http://www.idga.org/cgi-bin/templates/singlecell.html?topic=233&event=4816>
- 30 Jun 04** **Army IT Day** The theme this year is "Army at War: Relevant & Ready Through Technology" and is being held at the McLean Hilton in Tysons Corner, VA from 8:00a.m. – 6:00 p.m. For more information and online registration: <http://www.afceanova.org/events/armyitday>
- 11-25 Jul 04** **Information Operations (IRH) Course – ID: NGB-AIS-IRH** This course can be taken at any web accessible location at the times outlined in the Army Training Resources and Requirements System, ATRRS. This course is designed to take a National Guard CERT from implementation to full operation by explaining how to organize, manage and employ a CERT. Students are strongly encouraged to use a commercial ISP to connect to the web site for the course. Students must contact the IO Training Battalion to get a password and user ID for the course. Attendees must have completed IO101. Mentors/instructors are logged onto the IRH course for many hours during the course. For further information: <http://www.vtguard.com/IO/index.htm> or call (802) 485-1933. Course can be located in Army Training Requirements and Resource System (ATRRS) under School Code 1019.

- 12 Jul 04** **SOUTHCOM HQ Computer Security Day** is being held at USSOUTHCOM, Miami, FL. SOUTHCOM HQ Computer Security Day will take place at USSOUTHCOM HQ and will include personnel from USSOUTHCOM HQ as well as contractor personnel. The lectures taking place at this event complete a training requirement for the personnel located at USSOUTHCOM. Because personnel are required to participate at this event, we anticipate the corresponding Technology Expo to have excellent attendance. For more information: <http://www.fbcinc.com/event.asp?eventid=Q6UJ9A00777V>
- 12 – 23 Jul 04** **Joint Information Warfare Staff and Operations Course (JIWSOC)**. Class S-04-7 will be held at the Joint Forces Staff College (JFSC), Norfolk, VA. The JIWSOC is designed to educate individuals assigned or en route to an Information Operations cell on a Unified Command or JTF staff. The course is also highly suitable for individuals involved in IO issues assigned to a DoD Agency, Chairman Sponsored Activity, or Service Component supporting a Combatant Commander. The course provides broad exposure to IO and IW through staff lectures, seminars, case studies, panel discussions, guest speakers, and practical applications. The course is taught at the TS/SCI level. POC unclassified email: JCIWS-IW-QUOTA@jfsc.ndu.edu. Additional IW Division information is available at the JCIWS unclassified web page: http://www.jfsc.ndu.edu/schools_programs/jciws/iw/default.asp
- 12-30 Jul 04** **FA30 Information Operations Qualification Course**. Will be held at Fort Leavenworth, KS. Course is designed to train FA 30 officers for initial assignments in IO. The course includes an in-depth study of IO, including the elements of offensive and defensive IO. These elements are studied from the perspective of the FA 30 officer, who has integration, coordination, and synchronization responsibilities. Special emphasis is placed on IO planning and planning products, as well as attendant decision support tools available to the IO officer. Students hone their planning skills and demonstrate their knowledge of IO in a series of practical exercises (PEs) and product development exercises. This educational experience prepares IO officers for assignments at tactical and operational echelons where they are expected to coordinate, integrate, plan, and execute IO. A distance-learning phase is a prerequisite to this course and opens approximately 90 days prior to the resident phase. Limited seating is available to active, reserve and National Guard FA30 officers. POC: Mr Stephen Becker (913) 684-3089; DSN: 552-3089; beckers@leavenworth.army.mil
- 13-15 Jul 04** **Do It Yourself Vulnerability Assessment Program (DITYVAP) Certification** Training at Cobb Hall, Fort Gordon, GA. The goal of DITYVAP is to provide unit and command level systems and network administrators with certification training and an organic capability to perform self-assessments on internal networks. Training, state-of-the-art vulnerability assessment tools and techniques and other technical support is provided by RCERT-South with the ACERT-CDAB as the central authority. For more information, visit the RCERT-South Web site at <http://www.rcert-s.army.mil>
- 15-16 Jul 04** **Military Satellites 2004** is a two-day conference highlighting applications of satellite systems for the military. It will be held at the Thistle Marble Arch Hotel in London, UK. Operation Desert Storm in 1991 saw the first real operational use of satellites. Since then, the influence of satellite applications has grown so much, that in Operation Iraqi Freedom, military forces were completely dependant on the technology they provided. IQPC's Military Satellite conference brings you a world-class speaker panel touching on all aspects of satellite systems today. This is an exceptional opportunity to see the potential of satellite systems and to investigate areas for future business. For more information: <http://www.idga.org/cgi-bin/templates/document.html?topic=228&event=4909&document=40938>
- 26 – 30 Jul 04** **Joint Information Operations Planning Course (JIOPC)**. Class P-04-2 (follows S-04-7) will be held at the Joint Forces Staff College (JFSC), Norfolk, VA. The JIOPC is designed to explore in-depth IO planning. The course is structured around a practical exercise that requires the students to perform as IO planners on the staff of a Unified Commander, producing the IO portions of an OPLAN. The course is designed to be a graduate-level follow-on to the JIWSOC. The course is taught at the SECRET/NOFORN level, but discussions may reach the TS/SCI level. POC unclassified email: JCIWS-IW-QUOTA@jfsc.ndu.edu. Additional IW Division information is available at the JCIWS unclassified web page: http://www.jfsc.ndu.edu/schools_programs/jciws/iw/default.asp.

- 27-28 Jul 04** **Perspectives on C2 Assessment: Theory & Practice** Information and intelligent C2 systems are key to the success of the warfighter. The effective C2 system must enable the warfighter to combine all aspects of warfare - intelligence, operations, battle damage assessment, logistics - and communicate this information with the joint forces at all echelons. Additionally, a carefully assessed C2 strategy can leverage new warfighting capabilities to the combatant commanders, rendering fewer unknowns, environmental flexibility and a reduced staff. Attend IDGA's 2-day seminar and learn how to: Analyze C2 theory, doctrine and applications, Improve the practice of command and control, take full advantage of existing technologies in this age of information superiority, and develop a methodology for effective C2 assessment strategies, risk & cost planning, and reporting tactics. For more information: <http://www.idga.org/cgi-bin/templates/singlecell.html?topic=222&event=5012>
- 27-28 Jul 04** **Military Training & Simulation 2004** in Singapore builds on the success of a global series of premier forums dedicated to optimizing training & simulation strategies for the military. This forum will address ways to significantly increase impact of learning through the use of experimentation and simulation so as to drive effective decision-making and mission readiness. Confirmed speakers include: Dr Dexter Fletcher, Institute for Defence Analysis, Office of the Under Secretary of Defence, US DoD, Colonel Robert Sweeney, Chief Training & Readiness Division, US Pacific Command and Lieutenant Colonel John Boswell Director Army Training, New Zealand Army. For more details: www.iqpc.com.sg/AS-665/f6
- 27-29 Jul 04** **Joint Senior Psychological Operations Course (JSPOC)** The Joint Senior Psychological Operations Course (JSPOC) will be held at the Joint Special Operations University, Hurlburt Field, FL. The JSPOC is designed to prepare senior officers (O-6 and above) and civilian equivalents with an understanding of and practical applications for the core SOF task of psychological operations (PSYOP). It is suitable for experienced PSYOP personnel, SOF decision-makers, as well as theater planners. This executive education seminar concentrates on PSYOP Task Force operations as well as employment of other force modules. Selected presentations are at the TS/SCI level. The nomination form and seminar description is located on the webpage at: <http://www.hurlburt.af.mil/jsou>. Other inquiries may be addressed to unclassified email: jsou.jspoc@hurlburt.af.mil
- 28-29 Jul 04** **2004 U.S. Department of Homeland Security Security Conference** at the Sheraton Inner Harbor, Baltimore, Maryland is hosted by the Department of Homeland Security's (DHS) Information Security Office. The main purpose of this conference is to provide an educational training and information-sharing forum for DHS security personnel. The event will focus on providing employees who are involved in the secure operation of data communication networks, facilities management, personnel security, information system development, and other aspects of information assurance the opportunity to review requirements and receive training together. For more information: <http://www.fbcinc.com/event.asp?eventid=Q6UJ9A007OXB>
- 2-13 Aug 04** **Information Operations Capabilities, Application and Planning Course (IOCAP)** The IOCAP is an unclassified 80 hour course conducted in a classroom environment. Focus of training is application of full spectrum IO (planning, coordinating, executing, and assessing) as a member of an Army IO cell in both simulated deliberate and crisis action planning environments. Course prerequisites are a current Secret clearance and completion of the IO-101 CBT. Course is open to military personnel (Pay grade E-6 and above), DOD civilians and selected civilians and contractors. Point of Contact is Mr. Carlos Chipres, Com (703) 706-1409, DSN 235-1409, email crchpr@1stiocmd.belvoir.army.mil
- 3-6 Aug 04** **Joint Information Operations Senior Seminar (JIOSS)** The Joint Information Operations Senior Seminar (JIOSS) will be held at the Joint Special Operations University, Hurlburt Field, FL. The JIOSS is designed to prepare O-6 and above (or civilian equivalents) for leadership responsibilities in the planning and execution of information operations. A discussion forum for senior SOF decision-makers and others involved in IO who enable SOF missions, this executive seminar is also suitable for representatives from other headquarters and theater staffs. Nationally known guest lecturers and representatives from major commands lead virtually all presentations. Participants are challenged to explore and discuss different perspectives on IO and how it should be implemented by the DoD and SOF. Discussion and presentation is at the TS/SCI level. The nomination form and seminar description is located on the webpage at: <http://www.hurlburt.af.mil/jsou>. Other inquiries may be addressed to unclassified email: jsou.jioass@hurlburt.af.mil.

- 7–21 Aug 04** **CERT Operational Training Experience (OTE) - ID: NGB-AIS-OTE.** A 14-day training program held at the Vermont Regional Training and Technology Center in Northfield, VT trains Computer Emergency Response Teams (CERTs) in support of Information Operations. This course is designed to train students to protect networks by constructing multiple layers of computer network defense in depth. Additionally, there is a three-day hands-on situational training exercise (STX). Students must complete information operations IO101 and IRH prior to attending. Students must have network and system administration experience in either WINNT or UNIX. For further information: <http://www.vtguard.com/IO/index.htm> or call (802) 485-1933. Course can be located in the Army Training Requirements and Resource System (ATRRS) under School Code 1019.
- 9–20 Aug 04** **Information Operations (210) Course - ID: NGB-AIS-IO (210)** – Resident instruction held at the Vermont Regional Training and Technology Center in Northfield, VT. This 11 day class trains Field Support Team (FST) members to plan Information Operations (IO) using the Army's Military Decision-Making Process (MDMP). The course is presented in two blocks. Block I reacquaints students with the elements of IO, thoroughly familiarizes them with MDMP, and teaches students how to employ MDMP for IO planning. Block II, requires students to apply the knowledge and skills acquired during Block I as they plan IO under more realistic and stressful conditions. Prerequisites: Must complete Information Operations 101 prior to attending. For further information: <http://www.vtguard.com/IO/index.htm> or call (802) 485-1933. Course can be located in Army Training Requirements and Resource System (ATRRS) under School Code 1019.
- 16 Aug 04** **Naval Information Warfare Staff and Operations Course (NIWSOC) at CIN: A-2G-0116** being held at FIWC, IWTF, Norfolk, VA. CIN: A-2G-0116 - Class number FY0406- Graduates 16 AUG 04. The course mission is to prepare those personnel assigned or enroute to Information Operations (IO) assignments on a Naval Component, Afloat or Shore Staff. It is also suitable for individuals involved in IO as Naval representatives assigned to DoD or other U.S. government agencies or service component headquarters. The course provides students with the fundamental knowledge and skills to conduct Naval IO. The course emphasizes practical application and recent experiences that may be applied to current challenges. Topics include: Core elements and supporting activities of IO; IO policy, doctrine, and organization; IO capabilities and related activities; IO planning and targeting; and Naval-specific considerations. Students are required to demonstrate their learning by successfully completing an end of course examination and through participation in comprehensive practical exercises that are integrated throughout the course. Some students may be asked to provide presentations on IO/IW operations and organization in the activity to which they are assigned. Four quotas per class reserved for USMC. For directions visit <http://www.fiwv.navy.mil/info/directions.shtml>. Course schedules and Curriculum outline can be viewed at <http://ekm.netwarcom.navy.smil.mil/n92/NIWSOC.htm>
- 16-20 Aug 04** **Information Operations Fundamentals Course FY04-04060** To be held at EWTGLANT, Little Creek NAB, Norfolk, VA. Course available to all officer or enlisted personnel of any branch of service involved in the operational planning of units for employment as expeditionary forces, and to civilian personnel from DOD, State Department, and intelligence agencies/organizations, who participate in the planning and/or mission execution of expeditionary forces. The course provides a fundamental knowledge of the strategy, concepts, major capabilities and associated methodologies of IO that will enable the student to successfully integrate IO into the expeditionary warfare environment. A Secret clearance is required. Quotas may be requested via homepage: www.ewtglant.navy.mil <http://www.ewtglant.navy.mil>, call DSN 253-7343, COML: (757) 462-7343, or email at QUOTAS@EWTGLANT.NAVY.MIL mail to: QUOTAS@EWTGLANT.NAVY.MIL POC is Major Sanders (IO Course Manager): DSN: 253- 8685, COML: (757) 462-8685 or GySgt Durham (IO Senior Instructor): DSN 253-7748, COML: (757) 462-7748.
- 16-20 Aug 04** **Military Deception Planners Seminar (MDPS)** The MDPS is a 40 hour course designed to train individuals on the fundamentals of Military Deception planning in support of land component commanders. This training is conducted in a classroom environment using classified materials and involving discussions up to the Secret collateral classification level. Course prerequisites are a current Secret clearance. Point of Contact is Mr Carlos Chipres, Com (703) 706-1409, DSN 235-1409, email crchipr@1stiocmd.belvoir.army.mil

- 17-19 Aug 04** **Do It Yourself Vulnerability Assessment Program (DITYVAP) Certification Training** at Cobb Hall, Fort Gordon, GA. The goal of DITYVAP is to provide unit and command level systems and network administrators with certification training and an organic capability to perform self-assessments on internal networks. Training, state-of-the-art vulnerability assessment tools and techniques and other technical support is provided by RCERT-South with the ACERT-CDAB as the central authority. For more information, visit the RCERT-South Web site at <http://www.rcert-s.army.mil>
- 23-27 Aug 04** **Joint Psychological Operations Course (JPOC)** The Joint Psychological Operations Course will be held at the US Air Force Special Operations School/Joint Special Operations University, Hurlburt Field, FL. The JPOC is designed to educate U.S. military personnel, E-4 through O-5, and civilian equivalents whose duties require an understanding of joint psychological operations (PSYOP). It is suitable for SOF, force protection, intelligence personnel and those who require a solid understanding and appreciation of joint PSYOP capabilities. The course provides participants with fundamental knowledge of PSYOP policy, doctrine, and supporting organizations and capabilities. Additionally, experienced PSYOP personnel may benefit from presentations that highlight PSYOP application during current operations and in support of Theater Security Cooperation Plans. The course includes selected presentations at the collateral Secret level. The course description is located on the Course Webpage at: <http://www.hurlburt.af.mil/jsou>. Other inquiries may be addressed to unclassified email: jsou.jpoc@hurlburt.af.mil.
- 30 Aug – 3 Sep 04** **DOIM/AKM Conference** will be held at the Greater Fort Lauderdale/Broward County Convention Center Fort Lauderdale, Florida. The 2004 DOIM/AKM Conference is the premier forum to bring Government and Industry together to openly communicate commercial best business practices and government implementations. For questions: Please contact Donna Sliwinski at (703) 631-6128 or (800) 336-4583, ext. 6128 or e-mail dsliwinski@afcea.org.
- 30 Aug-3 Sep 04** **Special Operations Forces Information Operations Planners Course (SOF IOPC)** The SOF Information Operations Planners Course (SOF IOPC) will be held at the Joint Special Operations University, Hurlburt Field, FL. The SOF IOPC is designed to educate SOF commissioned officers, NCOs, and DoD civilians involved in IO and currently serving or enroute to a Theater Special Operations Command (SOC), Joint SOC, or JSOTF staff. It is suitable representatives from other headquarters and theater staffs who enable SOF. The course provides participants with fundamental knowledge of IO policy architecture and supporting organizations and capabilities. The course highlights planning processes for IO capabilities and intelligence products and services that facilitate IO. Participants will complete a practical application followed but case studies of current operations as well as a demonstration of automated planning tools. This nominative course is taught at the TS/SCI level. The nomination form and course description is located on the Course Webpage at: <http://www.hurlburt.af.mil/jsou>. Other inquiries may be addressed to unclassified email: jsou.sofiope@hurlburt.af.mil.
- 7-9 Sep 04** **4th International Common Criteria Conference** is being held at Folkets Hus, Stockholm, Sweden. This year, the conference will not target only the technical aspects of the Common Criteria as the most important worldwide standard for evaluating IT-security. It will also address topics as the financial and marketing aspects of using Common Criteria when e.g. developing new products with inherent security. And we will discuss advantages for organizations in both the private and public sector. Trust in your products and systems - soft- or hardware, is a major factor for gaining market shares. For more information: <http://www.iccconference.com/>
- 11-25 Sep 04** **CERT Operational Training Experience (OTE) - ID: NGB-AIS-OTE**. A 14-day training program held at the Vermont Regional Training and Technology Center in Northfield, VT trains Computer Emergency Response Teams (CERTs) in support of Information Operations. This course is designed to train students to protect networks by constructing multiple layers of computer network defense in depth. Additionally, there is a three-day hands-on situational training exercise (STX). Students must complete information operations IO101 and IRH prior to attending. Students must have network and system administration experience in either WINNT or UNIX. For further information: <http://www.vtguard.com/IO/index.htm> or call (802) 485-1933. Course can be located in the Army Training Requirements and Resource System (ATRRS) under School Code 1019.

- 14 – 24 Sep 04** **Joint Information Warfare Staff and Operations Course (JIWSOC)**. Class S-04-8 will be held at the Joint Forces Staff College (JFSC), Norfolk, VA. The JIWSOC is designed to educate individuals assigned or en route to an Information Operations cell on a Unified Command or JTF staff. The course is also highly suitable for individuals involved in IO issues assigned to a DoD Agency, Chairman Sponsored Activity, or Service Component supporting a Combatant Commander. The course provides broad exposure to IO and IW through staff lectures, seminars, case studies, panel discussions, guest speakers, and practical applications. The course is taught at the TS/SCI level. POC unclassified email: JCIWS-IW-QUOTA@jfsc.ndu.edu. Additional IW Division information is available at the JCIWS unclassified web page: http://www.jfsc.ndu.edu/schools_programs/jciws/iw/default.asp
- 20-21 Sep 04** **Gartner IT Security Summit 2004** at the Landmark Hotel in London. IT security has never had a higher profile – ever more frequently front page news. Each year the threats diversify, and each year we refine our responses. But where will your next weak spots emerge? Uncertainty means business case and ROI are difficult to quantify. Convergence, such as apps with embedded security, poses its own integration challenges. We examine in depth the strategies that are key to acquiring, measuring, implementing and managing effective IT security today. Registration Post: Gartner Registration Office, PO Box, Hampshire, TW20 9AW, United Kingdom, Registration Email: gg@delegate.com Gartner Contact: Pat Pearce – Tel:+44 (0) 1784 488 999, Fax:+44 (0) 1784 488 980, Email: pat.pearce@gartner.com. Pricing Details: Early Bird €1795, Standard €2095, Exclusive of VAT @ 17.5%
-
- 20-23 Sep 04** **New Security Paradigms Workshop 2004** For twelve years the New Security Paradigms Workshop (NSPW) has provided a stimulating and highly interactive forum for innovative approaches to computer security. The workshop offers a constructive environment for experienced researchers and practitioners as well as newer participants in the field. The result is a unique opportunity to exchange ideas. NSPW 2004 will take place at the White Point Beach Resort located on the southern shore of beautiful Nova Scotia. The resort can be reached by air via Halifax or by ferry from Portland, Maine. For more information: <http://www.nspw.org/current/>
- 20-23 Sep 04** **2004 Symposium: Network Centric Operations "Ground, Air Sea and Space"** will be held in Atlantic City, N.J. This symposium will address the GIG/NETOPS/BFN/LandWarNet planning and status, technological advances, and the impact on users abroad and in the homeland. Session topics include: Warfighter Network Centric Operations, Network Centric Technology, and The Impact of Network Centric Operations on Homeland Security and on the battlefield. For more information: <http://www.netcentricops04.com/>
- 21-23 Sep 04** **Do It Yourself Vulnerability Assessment Program (DITYVAP) Certification Training** at Cobb Hall, Fort Gordon, GA. The goal of DITYVAP is to provide unit and command level systems and network administrators with certification training and an organic capability to perform self-assessments on internal networks. Training, state-of-the-art vulnerability assessment tools and techniques and other technical support is provided by RCERT-South with the ACERT-CDAB as the central authority. For more information, visit the RCERT-South Web site at <http://www.rcert-s.army.mil>
- 27-29 Sep 04** **2004 Expo** The Association of the U.S. Army (AUSA) and the U.S. Army Europe (USAREUR) are pleased to announce that the 2004 Expo will be held at the Village Pavilion (Conference Center Tent Complex), Patrick Henry Village, Heidelberg Germany, 27-29 September 2004.
- 28-29 Sep 04** **Electronic Warfare 2004** in London UK. The theme of the conference is Examining the requirements, doctrine and systems that will prove crucial to EW dominance in the Future Joint Battlespace. Conference highlights include: Latest international requirements for Joint EW Operations, analysis of how learnings from recent conflicts are impacting future plans and doctrine, focus on key platforms, programs and technologies including the EA-18G, Chinook, DIRCM, Nulka and MoDAS, dedicated sessions on protection for civil aircraft, and tailored networking opportunities to promote international partnerships. For more information: <http://www.idga.org/cgi-bin/templates/document.html?topic=228&event=5134&document=42304>

- 28-29 Sep 04** **DoD Architectures - Framework, Development & Implementation** IDGA is proud to announce our 2nd Conference on DoD Architectures. This event was developed as a direct response to feedback from our past conference attendees regarding the continuing need for a training forum that presents all of the changes, updates and revisions to architecture development in the Department of Defense. The main focus of this briefing will be the implementation of Enterprise Architectures for the DoD. Building on the success of our February 2004 meeting, which attracted over 250 senior members of the defense community, attendance at this conference will enable people to discuss implementing the necessary tools and processes for a compliant, effective architecture. For further information and registration: <http://www.idga.org/cgi-bin/templates/singlecell.html?topic=233&event=5158>
- 30 Sep – 3 Oct 04** **Attend InfowarCon 2003** is being held at the Renaissance Washington DC Hotel, Washington , D.C. InfowarCon gives you access to the most advanced, most effective technologies and strategies for protecting your shared infrastructures from external and internal attacks. Join military leaders, political forces, academics, and industry captains from around the globe and arm yourself with the tactics you need to detect, react to, and protect against cyber attacks. Listen to the cutting-edge concepts of the latest on-going initiatives in the Homeland Security and Critical Infrastructure Protection communities. Learn the practices that are relevant and necessary for Information Warfare practitioners and policy makers. For more information: <http://www.infowarcon.com/app/homepage.cfm?appname=100206&moduleid=451&campaignid=338&UserCampaignID=718381>
- 5-7 Oct 04** **22nd Command, Control, Communications, Computers & Intelligence Systems Technology (C4IST)** is being held at Fort Huachuca, AZ. This annual event provides an ethical forum where Government and Industry can come together to demonstrate and discuss the latest C4I technologies, products and services. For more conference and exhibition details: <http://www.laser-options.com/afcea/Default.asp>
- 14-15 Oct 04** **TechNet Europe 2004** in Rome, Italy. The theme is aimed at business continuity. Businesses today, in whatever sector, are totally reliant on computers and the internet for their daily transactions. But, in an increasingly uncertain world, businesses need to be prepared for events that may happen without warning thus creating major disruption. Anything From a computer virus to a terrorist attack, even fire, flood, or straightforward theft - of ideas as much as equipment - can lead to lost initiatives, spiraling costs, dented reputations and eventually business or mission failures. Continuity must be an essential element of any business or operational plan. TechNet Europe 04 will therefore be about business continuity - and will seek to develop "an ABC for defense."
- 26-27 Oct 04** **Federal Information Assurance Conference (FIAC) 2004** is being held in the University of Maryland University College Inn and Conference Center in Adelphi, MD. The 4th Annual FIAC is a unique event - designed specifically to meet the real-world information assurance needs of the Federal Government and its workforce. This two-day event will provide a clearinghouse of useful information and educational opportunities for Federal managers, security practitioners, acquisition and procurement officials, accreditors, network and systems administrators, systems security officers, and certifiers. Bringing together a variety of resources from government, industry, and academia, the conference will showcase key information assurance programs and services being offered by the Federal Government, important information assurance technologies being produced by industry, and significant security policies and the planning and training necessary for their implementation. To learn more about FIAC, visit www.fbcinc.com/fiac.
- 31 Oct – 3 Nov 04** **Milcom 2004 (Military Communications Conference)** is being held at the Monterey Conference Center in Monterey, CA. It will focus on capabilities enabled by harnessing the power of new and emerging communications and information systems technologies. For over 20 years, MILCOM has been the premier international conference for military communications. It attracts the best and brightest with high-level attendance from government, military, industry and academia from around the world. For more information on exhibiting and registering: <http://www.milcom.org/index.htm>

- 1-5 Nov 04** **Information Operations Fundamentals Course FY05-05010** To be held at EWTGLANT, Little Creek NAB, Norfolk, VA. Course available to all officer or enlisted personnel of any branch of service involved in the operational planning of units for employment as expeditionary forces, and to civilian personnel from DOD, State Department, and intelligence agencies/organizations, who participate in the planning and/or mission execution of expeditionary forces. The course provides a fundamental knowledge of the strategy, concepts, major capabilities and associated methodologies of IO that will enable the student to successfully integrate IO into the expeditionary warfare environment. A Secret clearance is required. Quotas may be requested via homepage: www.ewtglant.navy.mil <http://www.ewtglant.navy.mil>, call DSN 253-7343, COML: (757) 462-7343, or email at QUOTAS@EWTGLANT.NAVY.MIL mail to: QUOTAS@EWTGLANT.NAVY.MIL POC is Major Sanders (IO Course Manager): DSN: 253- 8685, COML: (757) 462-8685 or GySgt Durham (IO Senior Instructor): DSN 253-7748, COML: (757) 462-7748.
- 8-10 Nov 04** **Computer Security Institute's 31st Annual Conference and Exhibition** at the Marriott Wardman Park Washington, D.C. The CSI Annual (also referred to as 'CSI Fall') has set the industry standard for the last 31 years and still continues to grow. It features a comprehensive program that covers a full range of security issues from Managerial to Technical, including product specific solutions, telecommunications, wireless, advanced technology, remote access, intrusion detection, computer crime, risk management, and much more. For more information: <https://www.cmpevents.com/csi31/a.asp?option=N>
- 5-7 Dec 04** **The 2004 Homeland Security Solutions Summit** is being held at the Sheraton Imperial Hotel and Convention Center Research Triangle Park, NC. This conference will bring together experts from the international private and public sectors in a unique summit to be held in the heart of the technology hotbed of Research Triangle Park. Summit delegates comprise 500 to 700 leaders from government, business, and academia. For more information: <http://www.ozonelink.com/summit04.asp>
- 24-28 Jan 05** **Information Operations Fundamentals Course FY05-05020** To be held at EWTGLANT, Little Creek NAB, Norfolk, VA. Course available to all officer or enlisted personnel of any branch of service involved in the operational planning of units for employment as expeditionary forces, and to civilian personnel from DOD, State Department, and intelligence agencies/organizations, who participate in the planning and/or mission execution of expeditionary forces. The course provides a fundamental knowledge of the strategy, concepts, major capabilities and associated methodologies of IO that will enable the student to successfully integrate IO into the expeditionary warfare environment. A Secret clearance is required. Quotas may be requested via homepage: www.ewtglant.navy.mil <http://www.ewtglant.navy.mil>, call DSN 253-7343, COML: (757) 462-7343, or email at QUOTAS@EWTGLANT.NAVY.MIL mail to: QUOTAS@EWTGLANT.NAVY.MIL POC is Major Sanders (IO Course Manager): DSN: 253- 8685, COML: (757) 462-8685 or GySgt Durham (IO Senior Instructor): DSN 253-7748, COML: (757) 462-7748.
- 21-25 Mar 05** **Information Operations Fundamentals Course FY05-05030** To be held at EWTGLANT, Little Creek NAB, Norfolk, VA. Course available to all officer or enlisted personnel of any branch of service involved in the operational planning of units for employment as expeditionary forces, and to civilian personnel from DOD, State Department, and intelligence agencies/organizations, who participate in the planning and/or mission execution of expeditionary forces. The course provides a fundamental knowledge of the strategy, concepts, major capabilities and associated methodologies of IO that will enable the student to successfully integrate IO into the expeditionary warfare environment.
